

South Coast Auto Services (Formerly Ed Ryan Auto Repairs) was established in 1987. Originally starting as a one-man workshop, it soon grew to what we have today. Ed Ryan was the original owner with Peter Warner appointed as the manager of the service centre in 1994. Peter purchased the business from Ed in 2007 and in October 2008 changed the name to South Coast Auto Services.

We are one of the largest independent service centres in Warrnambool, with ten staff members. Five of those staff are fully qualified motor mechanics and two apprentices who are constantly attending training sessions to keep ahead of the ever-changing motor industry.

Our ability to stay ahead of today's technology is greatly enhanced by our strong affiliation with the RACV. We are an RACV Road Service Depot, providing 24 hour road service in the Warrnambool area. We are also Warrnambool's RACV Service Centre and a VACC Accredited Repairer. This means our service centre meets or exceeds the standards required by both these organizations.

We are also a Fluidrive Franchisee, this means we are affiliated with one of the industry leaders in automatic transmission rebuilding, repairing and servicing.

If you are looking for honest, reliable service, you can't go past South Coast Auto Services.
